** Send only the people on the above list (2007& 2008) on the 1st 2007 dispatch, no additional trainees.*

- **IMT3 Mobilizations:** The IC will be called 1st, then each IMT member and the identified trainees. Trainees will be dispatched for every possible position on each IMT3 call out. Alternates will be used first for all other requested positions. If unable to fill requests for positions off either IMT list or the Alternates lists, use the DRC Quals list. Type 3 incidents are normally a short duration; most local people can commit to this or negotiate for a timeframe. Keep the IMT updated on the status of their requests, particularly if you have to go outside the DRC area to fill a requested position.
- If unable to fill the Safety position within the DRC Area, the operations will do it.
- A second IMT3 will be put together as needed using folks off the Alternates list.
- See the DRC Alternates List for temporary replacements for the IMT primary

66.2 INCIDENT MANAGEMENT TEAM CONFIGURATIONS

National Team configuration

Interagency Incident Management Teams ordered through NICC will be requested as either a long or a short team configuration. Any variation from the standard configuration is at the discretion of the requesting unit. The Deputy Incident Commander position is not mandatory. The Incident Commander and the Deputy Incident Commander positions on Interagency Incident Management Teams may only be filled by current agency employees. It is recommended that the following positions also be filled by current agency employees: Finance/Admin. Section Chief Type 1 or 2, the Procurement Unit Leader, the Comp/Claims Unit Leader, and Compensation-for-Injury Specialist.

NIMO / Type 1 / Type 2 Short Team Configuration (Total of 10 positions **maximum**)

- ICT1 / ICT2 Incident Commander Type 1 / Type 2
- DPIC Deputy Incident Commander
- SOF1 / SOF2 Safety Officer Type 1 / Type 2
- PIO1 / PIO2 Public Information Officer Type 1 / Type 2
- OSC1 / OSC2 Operations Section Chief Type 1 / Type 2 **(2 each)**
- AOBD Air Operations Branch Director
- PSC1 / PSC2 Planning Section Chief Type 1 / Type 2
- LSC1 / LSC2 Logistics Section Chief Type 1 / Type 2

NIMO / Type 1 / Type 2 Long Team Configuration (Total of 27 positions)

- DIVS Division/Group Supervisor* **(4 each)**
- ASGS Air Support Group Supervisor
- ATGS Air Tactical Group Supervisor
- SITL Situation Unit Leader
- RESL Resources Unit Leader* **(2 each)**
- FBAN Fire Behavior Analyst
- COML Communications Unit Leader
- SPUL Supply Unit Leader
- FACL Facilities Unit Leader
- GSUL Ground Support Unit Leader
- TIME Time Unit Leader
- COMP Comp/Claims Unit Leader
- PROC Procurement Unit Leader

Due to the nature of incidents that NIMO teams will be assigned to, team configuration will be negotiated by NMAC, the NIMO Coordinator, NIMO Incident Commander, and the requesting unit, up to the maximum number of positions. To increase personnel capacity and capability, trainees, apprentices, and/or technical specialists may be ordered for any or all positions.

In addition to the 27 positions identified on the long team configuration, Interagency IMTs may have a maximum of seventeen (17) positions to be negotiated and concurred on by the Incident Commander and the Agency Administrator from the requesting unit. As well, they may bring an additional six (6) trainee positions and six (6) S420/520 mentored command and general staff people. These positions are identified by the Interagency IMTs and not by receiving unit. Unless notified otherwise, these trainees will be mobilized for incidents on Federal lands.

The National Type 1 Incident Management Team Rotation is maintained throughout the calendar year. The current rotation schedule and assignments can be found at the following web site: <http://www.nifc.gov/nicc/> (Select Overhead)

The RMA Type 1 & 2 Incident Management Team lists and rotation can be found on the RMACC web site: <http://gacc.nifc.gov/rmcc/> (Select Overhead/Teams)

Rocky Mountain Area Team configuration

"Incident Management Teams ordered through NICC, regardless of Type, will be either a long or short team configuration. The RMCg has approved the following variation of the standard IMT configuration. RMA IMT's have the same positions and number of positions as the national configuration, except the RMCg has approved the following variation of the standard long IMT configuration: Instead of a Compensation Unit Leader, the RMA Type 1 team has substituted a Cost Unit Leader.

For Type 2 IMT national assignments trainees will be negotiated with the ordering unit.

See the RMA Mob Guide or Website for team rotations and a complete list of team members, alternates and trainees.
